

TRICK RIDING Saddles

HAWKESBURY RIVER
SADDLE CO

The Trick Riding Saddle is the saddle used by the 'Girls, Girls, Girls' trick riding team in NSW.

It is also used by 'Girls, Girls, Girls' West Australia and a number of other trick riders around the country.

The design of this saddle has evolved over a number of years to create what we believe to be an ideal saddle for the sport of trick riding.

Quality stainless steel fittings and special rigging designed by Heath Harris to cope with all the strap-work tricks.

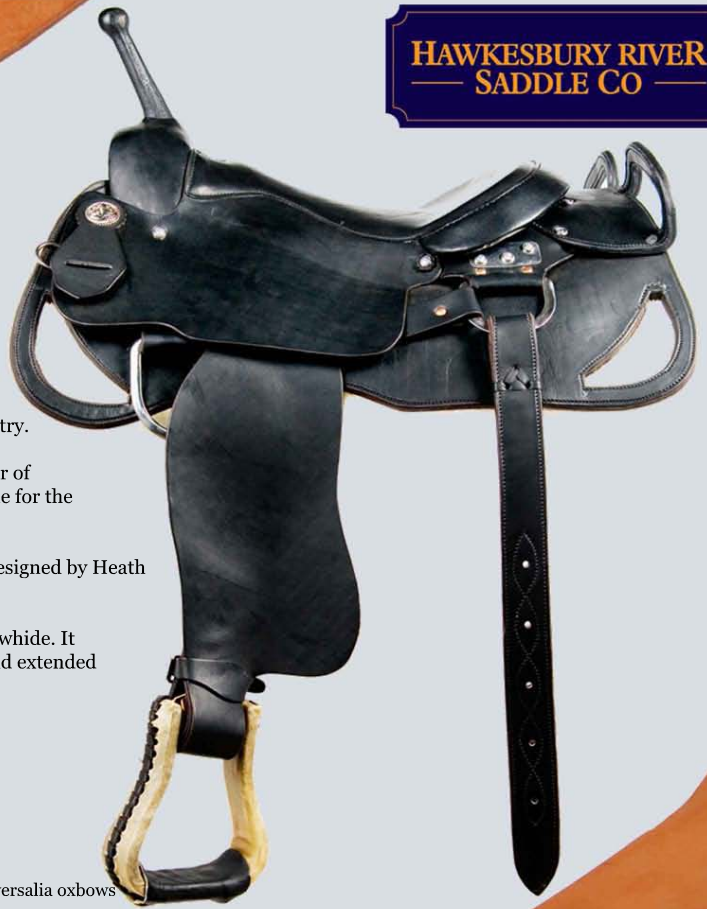

All hand holds are double reinforced by inserted rawhide. It features an extremely low swell cover and cantle and extended double rigging.
