

Dressage / Working Equitation Saddle

HAWKESBURY RIVER
SADDLE CO

Heath's unique design of the Hawkesbury River Saddle Co Dressage / Working Equitation Saddle has created a deep secure seat with a higher thigh contour roll and Spanish inspired cantle for optimum security.

Fractional fitting Gentec fully adjustable gullet and a combination of pure wool flock and rubber panel which allows the whole panel to be adjusted to suit your horse.

This saddle has been built with what we term a 'correctional' seat that will definitely go a long way towards achieving a much more centred and balanced position and the close contact panel style provides closeness to your horse.

The method of French Covering with calf skin leather makes our saddles exceptionally soft and grippy.

Colours: Black or Chocolate Brown 16", 16,5", 17", 17,5", 18"
